

HARD ANODISED

Professional Ovenware

CARE & USE

Before First Use

Remove all packaging, and any residual label adhesive then wash in hot soapy water, allow to dry.

To ensure the best food release from your bakeware it is beneficial to season the cooking area. Simply pour a generous layer of vegetable cooking oil (not olive oil) into the bakeware, using a kitchen towel rub all interior surfaces. Then place in a hot oven at approx. 200°C. After 12 minutes switch the oven off and allow to cool naturally. Remove from oven and with a clean piece of kitchen roll wipe away the excess oil. Finally wash in hot soapy water and allow to dry.

Use

Stellar Hard Anodised Bakeware is designed for oven and grill use up to 240°C, 475°F, Gas Mark 9. It is also suitable for hob use, like all quality cookware start on a low to medium heat and gradually raise to the desired temperature. (it will not work on an induction hob)

Not suitable for microwave use

Always use oven gloves or similar when moving the bakeware around the kitchen

Cleaning

Hand wash only in warm soapy water (Allow bakeware to cool before plunging into washing water - pouring cold water into hot bakeware may cause warping).

Using a dishwasher will degrade and remove the hard anodised finish.

For stubborn stains simply soak in hot soapy water, an abrasive cloth can be used if necessary.

Other

You may notice 2 “nicks” on the side of the bakeware, this is not a defect but an intrinsic part of the manufacturing process, and will not affect the performance/durability of your bakeware.

GUARANTEE

Please read the Use, Care and Safety Advice thoroughly. Stellar Bakeware has a Lifetime Guarantee to be free from defects in material and workmanship under normal household use.

We promise to the original purchaser that any defective part or item will be replaced, (or we will supply a product of equal value if the product is out of production).

The Guarantee does not cover damage by accident, misuse or commercial use. In addition, discoloration, scratching, staining and damage from overheating is not covered by the guarantee.

This Guarantee is in addition to your statutory rights.
